925-550-4813

## Technical Skills

**FRONT END:** JavaScript ES6, React, HTML5, CSS3

**BACK END:** Node, Express, Mocha, Chai, RESTful APIs

## Education

### THINKFUL

Mar 2019 – June 2020

Engineering Flex Program

Learned industry best practices and practical software development standards by collaborating several hours every week with a senior web developer.

### UNIVERSITY OF CALIFORNIA, BERKELEY

Aug 2004 – May 2008

Bachelor's Degree, Ethnic Studies

## Summary

A full-stack developer with 5 years of experience in graphic design project management. I love to turn complex ideas into simple, user-friendly applications and am passionate about leveraging technology to empower communities and promote inclusion and social justice.

## Recent Projects

### [BELLY / GITHUB](#)

Tech: WebSockets, React, JavaScript, HTML, CSS, Node, Express, PostgreSQL

A real-time bill splitting calculator for collaborating with others on complicated restaurant bills. Developed in collaboration with a visual designer.

### [ROOTS / GITHUB](#)

Tech: Plaid API, React, JavaScript, HTML, CSS, Node, Express, PostgreSQL

A micro-donations app concept that encourages users to give back to teachers in their community using the spare change from rounded up purchases.

### [EXPLORE SOMA PILIPINAS / GITHUB](#)

Tech: Mapbox GL JS API, jQuery, JavaScript, HTML, CSS

An interactive map of the SOMA Pilipinas cultural district of San Francisco that invites users to explore the businesses and organizations that make up this historic community.

## Work Experience

### [PROJECT MANAGER / SANS SERIF](#)

Oct 2014 – Present / San Francisco, CA

- Responsible for project management and front end development of a custom SharePoint site project in collaboration with a SharePoint developer.
- Implemented a login feature and content updates to a brand guidelines website built with PHP, JavaScript, HTML, and CSS.
- Improved internal team collaboration by managing the company's migration from an existing file server to Box and onboarding new users.
- Led internal and external teams of designers, developers and copywriters to deliver successful web, email, and print marketing campaigns for technology and financial services industry clients using thorough knowledge of design best practices, strategic planning, and effective communication.
